Committee.

- Published and Lectured on
*Defensive Ethics and Prosecutorial
Misconduct*

- AVVO Client Choice Award 2016-
2019.

EXPERIENCE

Paul Morgan Law Office PLLC
Founder and Managing Member, April 2015

- Manages staff members, which includes attorneys, paralegals, and an inhouse mitigator.
- State and Federal experience.
- Handled over 500 criminal cases with significant trial experience with complex forensic issues.
- Appellate experience with direct appeals and writs of habeas corpus.
- Provides second chair mentoring to inexperienced lawyers.

MAJOR CASES AND CAPITAL EXPERIENCE

- Handled the medical forensics in a shaken baby case against IC and obtained an acquittal.
- Secured dismissal in a white collar case against PB who was accused of stealing \$20,000 from a charity.
- Represented DB in a drug case. Discovered Harris County Precinct 4 was illegally tampering with evidence in a systemic fashion. Dismissal in DB's case caused the Precinct to be audited. The audit produced an indictment for tampering with evidence (with a 'no action' indictment) and forced 100 other cases to be dismissed. Currently there are approximately 7700 cases in post convicted status that have potential *brady* claims attached to them due to the audit.
- Obtained a dismissal for OF who was charged with aggravated sex assault of a child for speedy trial violations.
- Represented VB in a ABT gang killing. Discovered that the prosecutor's 'lay witnesses' were in fact paid FBI informants. Prosecutor lied on the record to the Judge about the status of witnesses and the payments made to them. Filed a motion to dismiss for prosecutorial misconduct and litigated it in Court.
- Obtained acquittal for MM in a game-room shootout case.
